3. BACKGROUND

Agrément South Africa was established by a Ministerial delegation of Authority in 1969. Since its inception, it has been administered by and housed at the Council for Scientific and Industrial Research (CSIR). The National Department of Public Works and Infrastructure (NDPW&I) has effectively managed the process of creating Agrément South Africa as a juristic person. The Agrément South Africa Bill was tabled before the National Council of Provinces and the National Assembly in Parliament and passed. The Agrément South Africa Act was accented to by the Honourable President of the Republic of South Africa as Act No. 11 of 2015. Agrément South Africa is an independent public entity for the technical assessment and certification of fitness-for-purpose of innovative building and construction products or systems.

The main objects of Agrément South Africa are:

- To provide assurance of fitness-for-purpose of non-standard construction related products and systems to specifiers and users.
- To support and promote the process of integrated socio-economic development in the Republic as it relates to the construction industry.
- To support and promote the introduction and use of certified non-standardised construction related products or systems in the local or international market.
- To support policy makers in minimizing the risk associated with the use of non-standard construction related product or system; and
- To be an impartial and internationally acknowledged South African centre for assessment and confirmation of fitness-for-purpose of non-standard construction related products or systems.

4. INVITATION FOR PROPOSALS

Agrément South Africa extends a call for the submission of proposals from suitable service providers, to assist us with Antivirus Solution (preferably McAfee) for Agrément South Africa.
